

Top 5 reasons to use telehealth

Telehealth — sometimes called telemedicine — is a way to receive medical care from your care team without an in-person office visit. Patients can be at home, the office, or anywhere else and receive telehealth services, via the internet using their computer, tablet, or smartphone.

There are many benefits of telehealth that provide quick access to high-quality, on-demand care, 24/7 across all 50 states, whether you are at home or traveling.

Here are the top 5:

- 1 Save time by seeing a virtual care specialist.**
No driving to or waiting in a clinic office.
- 2 Rest easy knowing the telehealth provider can access your current health records.**
Our telehealth providers and your regular care team both have access to your health information including allergies, current medications and treatment plans.
- 3 See a healthcare provider on your schedule.**
Instead of waiting for an appointment, now you can be seen online when those urgent, but not life-threatening situations arise for you or a loved one.
- 4 Stay in the comfort of your home, office – or anywhere that works for you.**
Your MyChart link within _____ allows you to seek care for you and your family anywhere, anytime.
- 5 Easy access to reliable healthcare**
We have partnered with the premier telehealth company to provide safe, reliable care when you need it. No new apps or logins necessary. It's just one stop at our digital front door.
